## Managing the risk of corruption: a cornerstone of quality and effective development co-operation

High Level Side Event on the occasion of the  
2021 UNGASS

Wednesday, 2 June 2021  
1:00pm-2:00pm (New York)

This event provides an opportunity for policymakers, donors and the UN community to discuss corruption's threat to equitable, effective development, and the importance of development cooperation in mitigating those risks, particularly in the context of COVID19, in line with the [OECD Council Recommendation on Managing the Risks of Corruption in Development Cooperation](#). The event will also explore the potential that exists for development cooperation to enhance coordination among development actors in mitigating corruption risks, reduce the threat and impact of illicit financial flows in developing countries, and the implications of these efforts for pandemic responses.
